

Key Facts Sheet

NBN SERVICES

SPEED HOW FAST?

<p>A</p> <p>NBN12¹ Minimum 8 Mbps²</p>	<p>B</p> <p>NBN25¹ Minimum 15 Mbps²</p>	<p>C</p> <p>NBN50¹ Minimum 30 Mbps²</p>	<p>D</p> <p>NBN100¹ Minimum 60 Mbps²</p>	<p>E</p> <p>NBN250¹ Minimum 150 Mbps²</p>
--------------------------------------------------------------------------------	---------------------------------------------------------------------------------	---------------------------------------------------------------------------------	----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------

NBN Fixed Wireless Speeds may be slower. Otherwise, if your line cannot provide the speed tier of your plan and this cannot be fixed, you can move to a lower speed plan without penalty (for FTTN, FTTC and FTTB connections only).

- ¹ This indicates the maximum possible speed (Mbps) you can receive off-peak (11pm–7pm).
- ² This is the typical download speed you can expect during busy periods (7pm–11pm).

PRICE HOW MUCH?

\$54.95 / month	\$69.95 / month	\$79.95 / month	\$89.95 / month	\$129.95 / month
100GB Data	Unlimited Data	Unlimited Data	Unlimited Data	2TB Data

USE WHAT CAN I DO WITH IT?

<p>1-2 people at the same time</p>	<p>2-3 people at the same time</p>	<p>3-4 people at the same time</p>	<p>5 people at the same time</p>	<p>5+ people at the same time</p>

🔧 TECHNICAL LIMITATIONS

NBN services will not work during a power failure. Your speed or performance may be reduced by other factors such as the quality of your router, standard of in-house cabling, distance between the router and wifi connected devices, electrical and wifi channel interference from nearby wifi devices and number of devices connected to the router. Talk to us about how you can maximise your performance.

🚨 MEDICAL ALARMS / SECURITY

Before entering into a consumer contract, you should find out if any medical or security alarm services you want to use are compatible with an NBN service. If your medical or security alarm services are not compatible with an NBN service, you should identify what alternatives are available. You can do this by contacting the provider of your medical or security alarm service.
